DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 17 and 18 have been considered but are moot in view of the new ground(s) of rejection. Claims 1-16 have been canceled. Claims 17 and 18 have been amended. This rejection is made FINAL.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 17 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Ota et al (US Patent Number 5504735).

Regarding claim 17, Ota et al disclose:

A record disc (figure 8, item 600) provided with an annular disc hub (figure 8, item 81), which is magnetically attractable (column 4, lines 33-42), the disc having a first main surface (figure 8, top of disk) for facing a write/read pickup (intended use limitation) and a second main surface opposite said first main surface (figure 8, bottom of disk) for facing a front face of a motor hub of a disc drive apparatus (intended use limitation);

Wherein said annular disc hub has a top surface, which is flush with said second main surface of the disc (figure 8) or, ~~preferably~~, which is slightly recessed below said second main surface of the disc over a small distance.

Regarding claim 18, Meguro et al disclose:

The record disc as claimed in claim 17, wherein said annular disc hub has a bottom surface which is flush with said first main surface of the disc (figure 8) or, ~~preferably~~, which is slightly recessed from said first main surface of the disc over a small distance;

Said annular disc hub ~~3~~ preferably being symmetrical so that said two distances are the same (figure 8, both the top and bottom are flush with the corresponding first and second main surface).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
